

## P.S. FILM EXTRA

**Cad-cut material for difficult fabrics**

### Description

PVC-free material for Cad-Cut® applications. Suitable for “difficult” fabrics such as nylon jackets, sportswear, bags, umbrellas and leather.

**Adhesive** Polyester backing.

### Basic Information

Due to the many different base materials available on the market, the following heat transfer instructions are given as guideline only:

**Temperature:** 160°C

**Time:** 15”

**Pressure:** min.

### Application Instructions

#### Important:

- 1) Cut the material **in reverse**
- 2) Weed the exceeding material
- 3) Place the material on the garment with its polyester support
- 4) Heat apply
- 5) Remove polyester backing **hot**

### Suitable for

Polyamide, nylon and silicon treated garments not dyed with sublimation inks

### Washing: (wait 24h after the heat transfer)

40°C Max. – do not use bleach or other aggressive chemical agents

**Dry-cleaning :** no

**Tumble drier :** yes

*N.B. : all information given in this sheet are based on our experience*

***We recommend to always perform a test before starting standard production***

The product meets the Italian and Ue regulations relating to its proper use.
